AMERICAN WOMAN HUMILIATED.

Arrested by Paris Police-Released With Apologies.

SPECIAL BY CABLE. SPECIAL BY CARLE.

Paris, Oct. Z.—(Copyright, 1999, by W. R.

Hearst.)—Another American woman has been subjected to the ignominy of arrest and detention by the infamous Brigade des Mocurs, as that particular division of the Parisian police is designated which is intrusted with the duty of putting into execution the laws dealing with the women of the half world here.

trusted with the duty of putting into execution the laws dealing with the women of the half world here.

Only the most degraded and least respected of the metropolitan police consent to join the Brigade des Moeurs; consequently its officers supplement their ridiculously small pay by blackmail and by bribery. The victim is May Garlick of Baltimore, wife of the Marquis de Foe. She la now seriously ill from the effects of the brutal and vile treatment to which she was subjected by the police, who, insisting that she was a notorious character, arrested her and kept her for several hours in orison until she was identified. Then she was released with the usual apologies.

May Garlick, prior to her unfortunate marriage, was one of the leading singers of the Castle Square Opera Company at the American Theater in New York. Her husband, who is an Italian, deserted her here after shamefully maltreating her, leaving her without means, whereupon she returned to the operatic stage, making her European debut at Monte Carlo. Married to an Italian, she has forfeited her American nationality and has no claim on the protection of the United States Embassy. The Italian Embassy declines to do anything for her in obtaining redress from the police.

### PRISONER ESCAPES.

Richard Meyer Was Serving Term in Workhouse for Larceny.

Richard Meyer, 29 years old, escaped from the Workhouse, where he was being held as a prisoner. Friday afternoon. The escape was immediately reported to the police, but Assistant Chief Pickel declared he knew nothing about it. Meyer was sentenced to skity days in the Workhouse and had served but 48 hours of his term when he made his escape. He had been detalled with the chain gang for work in the clay pits and it was while working there that he made his successful dash for liberty. Several shots were fired at him by the guards, but he cluded them before he reached the river bank. Meyer was convicted of petit larceny.

Only.

The report that Meyer jumped into the river and swam to friends who were waiting for him in a skiff, according to several Workhouse guards, is entirely unfounded.

MADISON SQUARE GARDEN.

IN NEW YORK'S POLITICAL HISTORY.

BRYAN DEMONSTRATION GREATEST

BRYAN'S SPEECH AT

REPUBLIC SPECIAL.

New York, Oct. 27.—Mr. Bryan's entrance into Madison Square Garden was the signal for a tremendous outburst of enthusiasm, which was not quelted until the candidate was in position to speak.

Mr. Bryan, on being introduced, said,

in part:
"I am glad to be here to-night, not only for the opportunity it gives me to meet again the people of New York, but because I am glad to give expression to my ap-preciation of the great work which has been done, and is being done, by the Na-tional Association of Democratic Clubs, and

association, Mr. Hearst.

"The clubs have been of great assistance in perfecting the organization of the party, and in collecting money for the campaign, and the liberality of the president of the association has been an inspiration to the members of the clubs. The work remaining

members of the clubs. The work remaining for the clubs to do is to get our vote to the polis and gund the count. "In searching for a text for this evening's speech I found a passage in Proverbs, which sets forth the truths which I desire to im-press upon you. You will find it in the twenty-second chapter and twenty-eighth

"Remove not the ancient landmarks which thy fathers have set."
The Democratic party is the conservative party of to-day, the Republican party the revolutionary. The Democratic party is defending time-honored principles; the Republican party is urging new experiments. The home after a short filness. She suffered externely for the last few days, and her death was not unexpected. It resulted from a complication of maiadies. Mrs. May recently returned from Europe.

Mrs. C. E. Ford Fatally Hurt.

A special dispatch received by The Republic last night from Canton, O., says that Mrs. C. E. Ford of St. Louis sustained in Juries in a runaway at that place yesterday which probably will result in her death.

Il can party is urging new experiments. The Democratic party is applying familiar principles to new conditions; the Republican party is removing the ancient landmarks. In advocating bimetallism we advocate a financial system whose usefulness is attested by thousands of years of history, as well as by our own national experience, and by the rast platforms of the Republican party and all other parties.

vocating a mency first issued by the Republican party, approved by the Supreme Court and never condemned in a Republican platform. In advocating an income tax we advocate a system which received the sanction of Abraham Lincoln and which is now practiced in many of the leading nations of Europe.

Defense of Old Institutions.

"In opposing government by injunction we are simply defending the jury system. which has been described as the bulwark of English freedom and is as important

ing to the relations which now exist be-tween employer and employe the old theory of the court of justice, wherein disputes are settled by right, rather than by might. But I call especial attention to the fact that the Republicans in this cam-paign have adopted three new and dangerous theories; First, that industrial despotism is wise; second, that a large army is necessary, and, third, that a colonial policy

is right. "It is impossible to overestimate the effect of a change from industrial independ-ence to the reign of private monopoly. It is a revolution the magnitude of which cannot be overstated, and the far-reaching consequences of which cannot be estimated. The large army is a natural sequence of

YALE STUDENTS WARMLY

RECEIVE MR. BRYAN.

A crowd of over 19,000 persons greeted the Democratic leader in the Second Regiment Armory, Yale nen were out in force, and rot only not only gave respectful attention to Mr. Bryan's speech, but applicated many of his utterances. Old Ell's yell resounded throughout the great building, and Bryan's name rang from hundreds of collegiates' throats. At the conclusion of Mr. Bryan's speech they crowded around the leader, eager and at xious to gram his band.

arxious to grasp his hand.

Mr. Bryan arrived in New Haven a few minutes after it o'clock, and, despite rain, which was falling at the time, he was welcomed at the station by cheering thou-sands. The candidate was driven direct to the armory, the largest building in the city. with a capacity of 10,000 persons. The build-ing was jammed to the doors, and thou-sands were excluded for lack of standing

to make himself heard. Mr. Bryan was upon the point of closing his speech, when some one in a distant part of the hall made an inquiry about free silver. Mr. Bryan replied vigorously. "I am done, but I am going to stop long

enough to answer that gentleman. I have been talking to those whose ideas emanate from the head and not from the pocketbook. I will now talk to those who can-not soar higher than the pants pocket. I want to remind the man who wants to know about silver that you do not have to ask questions to find our policy on the money question.
"If the gentleman can read he can read

a platform that states that party's position so that even a Republican can understand it, and if he has had time to read the plat-form and know anything of me he knows where I stand, whether there is a platform

REPUBLIC SPECIAL.

New Haven, Conn., Oct 27.—Four years ago, when Mr. Bryan visited this city, he was hissed and scarcely allowed to speak by noisy Yale students. His reception here to-day, however, was in sharp contrast to that given him on that occasion.

A crowd of over 10,000 persons greeted the

train at 1 p. m. The train was crowded with members of the National Association of Democratic Clubs from various Con-

necticut towns. Mr. Bryan made short

speeches at Bridgeport, Port Chester, New Rochelle and Mount Vernon, where he was greeted by large and enthusiastic crowds. SAYS MINERS WERE RIGHT. Bryan Glad the Strike Has Been

New Haven, Conn., Oct. 27.-W. J. Bryan was asked to-day for a statement of his views upon the settlement of the authracite coal strike, and replied as follows: sands were excluded for lack of stateding room. The applause that greeted Demogracy's leader lasted for several minutes, and it was with difficulty that he was able to make himself heard. their complaint. But the fact that they were felle a month and that the consumers of coal have had to pay a higher price for the coal which was the cause of the strike shows how important it is to have arbitra-tion for the settlement of differences be-tween labor and capital.

"A just system of arbitration would have

secured to the miners the advantage which they have gained, and probably a still greater advantage without the loss which they have suffered, it would also have saved the public the loss which has been visited upon it." Mr. Bryan's itinerary for next Wednesday has been completed. All of that day will be given to the State of Ohlo. He will plete the New York campaign at Dun-

kirk Tuesday night, and after his meeting there his private car will be attached to a regular train and taken to Toledo, O., arriving there at 8 a.m. Wednesday. He will speak there at 11 o'clock. FIGHTING FOR FERRELL'S LIFE. His Attorneys Hope Only to Save Him From Death Sentence.

Marysville, O., Oct. 27.—Taking of testimony in the trial of Rossiyn Ferrell, charged with the murder of Express Messenger Lane, was completed late this afternoon, and court adjourned to Monday morning, when arguments will be begun.

The attorneys for the defense have concentrated their efforts to save Ferrell from the electrocution chair, and their only question with the jury will be the degree of the crime. The only evidence offered by the defense has been to show the defendant's good reputation previous to the crime, and to support the plea of insanity.

The chief witnesses to-day were Doctor E. C. Carpenter, superintendent, and Doctor E. D. Bain of Benton and Doctor H. A. Rodebaugh of this city, specialists in nervous discusses, called by the State to show the probability of insanity of insanity or mental weakness to the quarter Mr. Aug.
